BEST PRACTICES

**REUSE**  
UP TO 30 PROCEDURES

## Put an end to glare and eye fatigue

UVISION's wavefront optimized lens technology provides enhanced clarity to reduce glare and eye fatigue even during long procedures. Advanced optics means minimal distortion or halo. Less distortion means enhanced concentration. Inclined aerodynamic lens geometry maximizes ventilation while minimizing glare.

## Put an end to uncomfortable eyewear!

Innovative frame design ensures a non-slip fit on any face, combining comfort with a protective barrier.

### U18 optik

- >> Offers ultimate comfort and a pressure free fit weighing less than an ounce (18 g).

### U18+ optik

- >> Unique design accommodates prescription glasses, allowing a comfortable, lightweight fit.

### U42 optik

- >> Proprietary quick-adjust temple design ensures a perfect fit for all sizes of faces.

UVISION products are designed and manufactured in Germany using the same rigorous standards of excellence that have made German quality and performance the gold standard. At UVISION we're constantly pushing the envelope, searching for ways to improve the already most technologically advanced products in the category. Surgical class optik is the most recent example of our efforts. We will continue to leverage our propriety technologies so we can continue to provide the best possible products for you. To order or reorder product, call UVISION at 1-877-357-1801 or go to [uvision.com](http://uvision.com)
