FEATHERLIGHT COMFORT

UVISION offers the lightest Surgical Class Optik eyewear available in the market today!

Our products are designed and manufactured in Germany using the same rigorous standards of excellence that have made German quality and performance the gold standard. At UVISION we're constantly pushing the envelope, searching for ways to improve what are already the most technologically advanced products in the category. Our featherlight comfort is just one example of our efforts.

- >> **Ultra lightweight for lasting comfort**
UVISION's U18 offers the ultimate featherlight comfort, weighing less than an ounce (18 g). Our U18+ has a unique design that will accommodate prescription glasses resulting in a comfortable, lightweight fit.
- >> **Soft, flexible temples for pressure-free fit**
UVISION's lightweight construction with wrap-around lens imparts unprecedented comfort and a pressure-free fit. The soft, flexible temples further enhance the fit and will provide you with the long lasting comfort you need for all procedures.
- >> **Non-slip on any size face**
UVISION's innovative frame design ensures a non-slip fit on any face, combining comfort with a protective barrier. Additionally, the U42 provides a quick-adjust temple design to ensure a perfect fit for all sizes of faces.

Visit us on the web at www.uvision.com to learn more about UVISION and Surgical Class Optik's unparalleled performance with proprietary anti-fog coating, lightweight design and superior no-slip comfort. Orders may be placed on the web or contact UVISION directly by calling 800-357-1801.
