## UVISION Surgical Class Optik

### **How do you clean and store UVISION eyewear?**

Clean and treat your UVISION eyewear like you would any pair of your personal prescription eyewear. Simply use soap and water and clean with a soft dry cotton cloth or use a pre-moistened towelette, preferably with low to no alcohol. Store UVISION eyewear in a clean dry location that is easily accessible, such as a storage locker. If the eyewear becomes contaminated with any body fluids, dispose of the eyewear at the end of the procedure.

### **Send us your questions!**

Our goal is to assist you in any way we can. Please, contact us at anytime with all your questions and feedback at 1-877-357-1801 or [info@uvision.com](mailto:info@uvision.com)

UVISION products are designed and manufactured in Germany using the same rigorous standards of excellence that have made German quality and performance the gold standard. At UVISION we're constantly pushing the envelope, searching for ways to improve what are already the most technologically advanced products in its category. Surgical Class Optik is the most recent example of our efforts. We will continue to provide the best possible products for you.
